

Lessons of Life, FAQ

In this book you will find numerous answers to questions that have troubled many people for a number years.

The answers are divided into several sections that affect all aspects of our lives: problems within ourselves, relationships between a man and a woman, parents and children, problems with health, work and finances. It is the first book in which political issues are discussed, and A. Sviyash answers questions about himself.

All answers are a practical implementation of Intellectual Path's ideas to real life situations.

This book further develops ideas, which have been discussed in earlier books.
